*February 2008 - the lowest point on the UK claimant count series - is used here as the initial measurement point to take into account the extended duration of the recession.

**We have used data for Primary Urban Areas (PUA) - a measure of the 'built-up' area of a city, rather than individual local authority districts. Source: ONS (from Nomis on 12 November 2014)

Note: A methodological improvement means that these figures are not directly comparable to Youth JSA tables published by Centre for Cities before April 2012.
